SUMMARY

Over two years of experience with web development, seeking to solve problems using technology, My expertise is front-end, with technologies such as: **Svelte, Vue, JavaScript (ES6), Typescript, Tailwind CSS, SASS, Bootstrap**, among others .

Additionally, I have gained experience in **SQL, PHP, Python, Vercel, Linux, Git, programming logic, error handling, algorithms and data structure..**

LANGUAGES

- **Portuguese** (Fluent)
- **English** (B2)

EXPERIENCE

Frontend Developer, freelance

October 2022 - Present.

Project: **South Tech** ([Project Link](#))

- The idea of the project is to be a prototype of a school with emphasis on teaching technology.
- I took care of the entire project, not just the frontend, from requirements gathering to hosting. The project was a success, with interaction from real users.
- Technologies: **PHP, MySQL, Javascript, HTML5, Tailwind CSS, Netlify**.

Project: **Billy Mentoria** ([Project Link](#))

- A website that aims to promote a course about design.
- The development was a success and it was then used commercially, being publicized on the main social networks.
- Technologies: **Javascript, Tailwind CSS, SASS**.

EDUCATION

Bachelor's degree in Computer Science: University of Marília (2024-2027)

Systems Development: ETEC Deviate (2022-2023)
